CAREER OBJECTIVE

As a final year Computer Science Engineering student eager to launch a career in Java development, I am driven by a passion for crafting robust and innovative software solutions. With a solid foundation in various programming languages and database management, I am poised to contribute effectively to dynamic development teams. Seeking opportunities to further refine my expertise and make meaningful contributions to cutting-edge projects in the field of software engineering.

HOBBIES

- Sports
- Travelling
- Music
- Reading Books

STRENGTHS

- Creativity
- Technical Proficiency
- Strategic Thinking
- Adaptability

QUALIFICATION

- **B. Tech in Computer Science and Engineering**, Sanjay Memorial Institute of Technology Berhampur (2025), CGPA:7.3
- **12th in Science Stream**, Vigyan International Junior College Koraput (2020), Percentage:71%
- **10th**, Government High School Pottangi (2018), Percentage:71%

TECHNICAL SKILLS

- Languages: Java
- Technologies: HTML, CSS, JDBC, JSP, SERVLET
- Database: Oracle, My SQL
- Others: Power Bi, Git, GitHub, Tomcat Server, Eclipse IDE

CERTIFICATIONS

- Core Java, Advanced Java, DSA using Java from NARESH IT.
- Oracle Database from NARESH IT.
- Programming using Java from Infosys.

- Power bi certifications from Skill Nation.

INTERNSHIPS

Internship with CodSoft

11 2023, Remote

- During my internship at CodSoft, I completed web-based projects including a bank ATM interface and library management system. Tasks involved frontend development using HTML, CSS, JavaScript, and backend work with JDBC and Servlets for database integration. This experience allowed me to enhance my skills in web development and database management while contributing to successful project outcomes.

Internship with CodeClause

01 2024, Remote

- At CodeClause, I developed an online exam platform using frontend technologies like HTML, CSS, and JavaScript. Additionally, I implemented backend functionality using JDBC and Servlets for database interaction. This experience enhanced my skills in web development and backend integration, providing valuable insights into software development practices.

PROJECTS

Hospital Billing System | HTML, CSS, JDBC, SERVLET, JSP, Oracle Database

- Prompts users to input information about prescribed medications, and calculates the total bill.
- Generates and displays the total bill amount for the consumer in a structured form.

Travel Booking System | HTML, CSS, JDBC, SERVLET, JSP, Oracle Database

- Prompts users to select flights and input information such as date & time, source, and destination.
- Generates a ticket with the flight details.

Expense Tracker | HTML, CSS, JDBC, SERVLET, JSP, Oracle Database

- A personal finance application designed for tracking expenses and managing budgets.
- Calculates and generates the final balance.

DECLARATION

I hereby declare that the details and information given above are complete and true to the best of my knowledge

Place

Berhampur, Odisha
